

Pivot Park

Focused on biopharmaceutical sciences

Leading in immunology, oncology and cell therapy.

Pivot Park is an increasingly popular location for companies focusing on biopharmaceuticals and biotech. By investing in building a world-class biopharmaceutical R&D infrastructure, we create the perfect conditions for new companies, young companies and established companies to grow.

The companies at Pivot Park work in a variety of therapeutic areas. These areas range from small molecule development to complex antibody structures; from vaccines and viruses to immunology, oncology, cell and gene therapy.

pivotpark

Europe's foremost biopharmaceutical campus

A unique ecosystem of over 60 biopharmaceutical companies.

From start-ups, scale-ups to established companies.

At the time of writing, Pivot Park was home to the following companies:

 3DPHARMXCHANGE DEDICATED DRUG DEVELOPMENT EXPERTS	 Acerta Pharma A member of the AstraZeneca Group	 Agidens	 ARDENA	 ARNOLD & SIEDSMA patents & trademarks
3D PharmaXchange Clinical Contract research project management ●	Acerta Pharma Developing novel targeted therapeutics for the treatment of cancer ●	Agidens Life Sciences A reliable validation and compliance partner for GMP/GLP/ISO-projects ●	Ardena Oss Delivering drug development, manufacturing and bio-analysis service globally ●	Arnold & Siedsma Specialist in protecting your intellectual property ●
 BG.legal ziet kansen	 BioAxis Research	 BIO-CONNECTION FILLING NEEDS IN BIOPHARMACEUTICAL DEVELOPMENT & MANUFACTURING	 Cell4Pharma	 CERTARA
BG.legal Law firm ●	BioAxes Research Collaborative research to identify leads and develop drug candidates ●	Bioconnection Development and production of injectable (bio)pharmaceutical products ●	Cell4Pharma Provides patented diagnostic, toxicology technologies and consulting services. ●	Certara Drug Discovery and Development consultants in bio-simulation ●
 Citryll	 Cytura Therapeutics Targeting genomic instability	 Derks & Derks Delivering Recruitment & Development Solutions	 De Vries & Metman OCTROOICENMAGTIGENDEN / EUROPEAN PATENT ATTORNEYS	 eurofins Spinnovation Analytical
Citryll Medicines against auto-immune diseases targeting the pathobiology of Neutrophil extracellular traps ●	Cytura Therapeutics Therapies targeting genomic instability in cancer ●	Derks & Derks Delivering recruitment & development solutions; specialist in Life Sciences and Healthcare ●	De Vries & Metman Protecting innovation is our passion ●	Eurofins Spinnovation Analytical Centre of Excellence for Solid State, NMR ●
 galileo dynamics	 Genase THERAPEUTICS BV	 GLYCOMITSCAN	 glycostem	 HAN UNIVERSITY OF APPLIED SCIENCES
Galileo Dynamics With our cell culture automation platform, our mission is to reinvent the lab ●	Genase Therapeutics Small molecule inhibitor against a metabolic target ●	Glycomscan Analytical services by mass preclinical spectrometry ●	Glycostem Stemcell derived Natural Killer cell immunotherapy against cancer (AML and MM) ●	HAN University of Applied Sciences Arnhem & Nijmegen ●

 immagene IMMUNO-ONCOLOGY	 IpA IMMUNOPRECISE ANTIBODIES	 innatoss laboratories bv	 INPROCESS LSP	 Leadpharma
Immagine Novel Immune therapeutics for cancer by a platform-based target selection ●	ImmunoPrecise Antibodies Europe Therapeutic antibody discovery services and production ●	Innatoss Diagnostics for Lyme's, COVID-19 and Q-fever and COVID research ●	InProcess-LSP NanoflowSizer equipment for inline and real time nanoparticle characterization in flow ●	Lead Pharma Discovering, designing and developing small-molecule therapies to treat autoimmune diseases and cancer. ●
 LITEVAX	 Mercurna	 MSD Animal Health	 NanoServe Sustainable Nano Design	 NELISCA accountants & advisers
LiteVax Development and exploitation of innovative vaccine adjuvant concepts ●	Mercurna Precision Medicine for kidney disease based on mRNA therapy ●	MSD Animal Health Prevention and treatment of (emerging) diseases that threaten people and animals ●	NanoServe Developing orally available insulin formulations ●	Nelisca The accountant for small and medium size Life Science enterprises ●
 NTRC	 Oncolines	 ORGANON	 OSTEO-PHARMA BIO-TECHNOLOGIES	 Pedersen & Partners EXECUTIVE SEARCH
NTRC Next generation kinase inhibitor company to treat acquired drug resistance using the EPriL platform ●	Oncolines Bring Novel Therapies to the Right Patient Population Faster with precision medicine ●	Organon We envision a better and healthier every day for every woman ●	Osteo-Pharma Novel products for orthopedic and dental applications with OsteoActivatorTM-technology ●	Pedersen & Partners Leading international executive search firm ●
 PerkinElmer	 Pharming	 PharmSupport Empower Quality	 πBio	 pivotpark screeningcentre
Perkin Elmer One Source Lab services: a complete suite of solutions for today's labs need ● ●	Pharming Technologies Protein replacement therapies and precision medicines for rare diseases and unmet medical needs ●	PharmSupport Empower quality ● ●	PimBio Development of microfluidic devices for bioengineering physiologically relevant in vitro models ●	Pivot Park Screening Centre Early Drug Discovery: Assay development, ultra-High Throughput Screening, Hit2Lead ●

● Product Development ● Contract research organisation ● Contract manufacturing organisation ● Supporting pharma services

Precision Medicine Lab

Leveraging genome-scale datasets, hospital big data & machine learning to improve cancer patient outcomes

Ribopro

mRNA platform technology and production

Sublin

Needle free Insuline with (sublingual) formulations combining fast and slow acting release

Synaffix

Antibody-drug conjugate (ADC) technologies for targeted delivery

Thema Group

Life Science recruitment - Search.Find.Match. Together

TTxD

Trained Therapeutics Discovery (regulating trained immunity with novel nanobiologic medicines)

Van Iersel Luchtman

The law firm for the entrepreneur

VILS Netherlands

We design and build your facility

Vivenics

Empowering life science labs with fair and reliable data

● Product Development ● Contract research organisation ● Contract manufacturing organisation ● Supporting pharma services

Pivot Park is the foremost campus for biopharmaceutical innovation and discovery in Europe today.

Isn't it time you joined us?

pivotpark

Europe's foremost biopharmaceutical campus

Kloosterstraat 9, 5349 AB Oss, the Netherlands
